

Alternative Financing for Municipalities:

Overview of Four Options

January 7, 2009

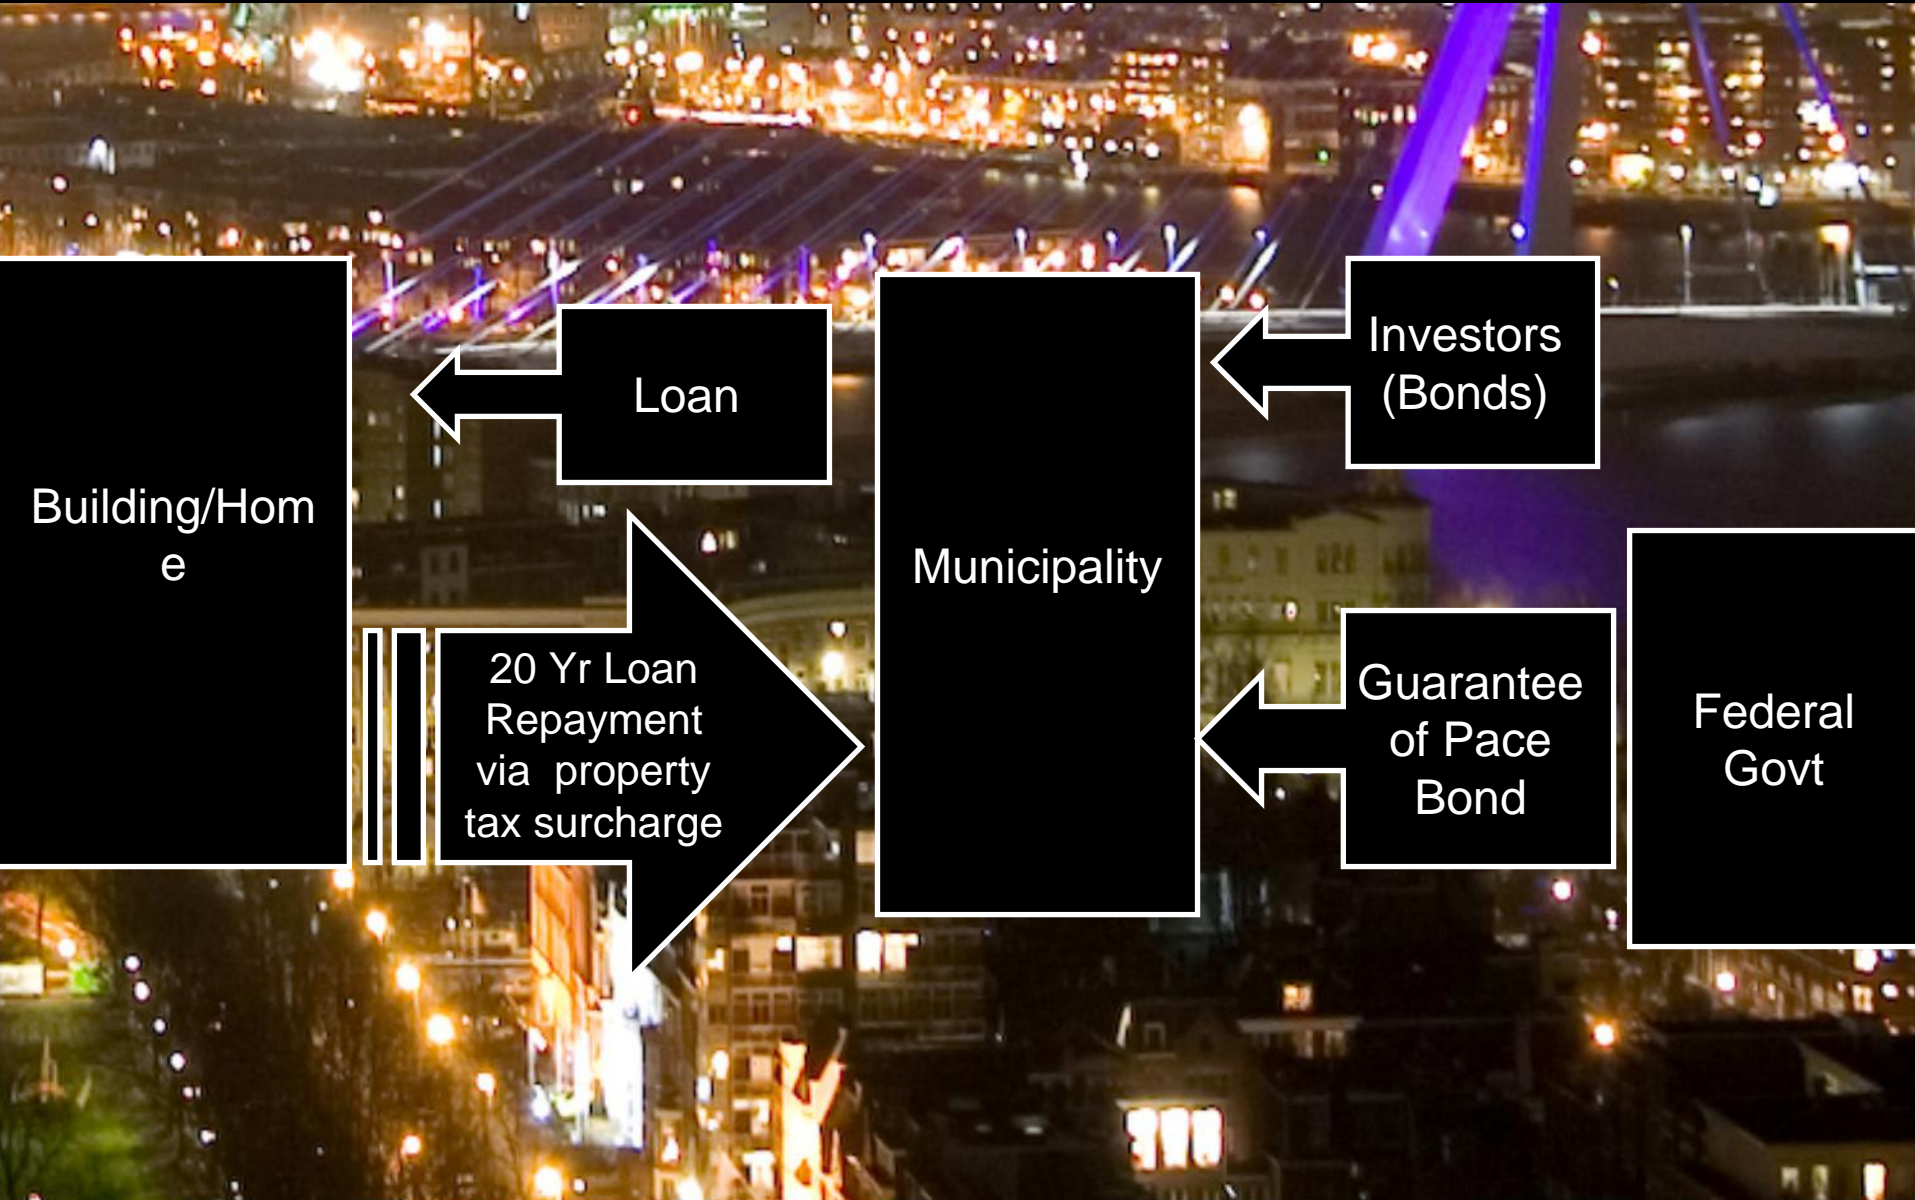

Financing Municipal Needs

Municipalities are faced with growing demands and tight budgets. There are a growing number of alternative solutions which can provide significant funding for critical needs:

- Property Assessed Bonds
- On-bill Financing
- Public-private funds
- Media-driven financing

How do PACE Bonds work?

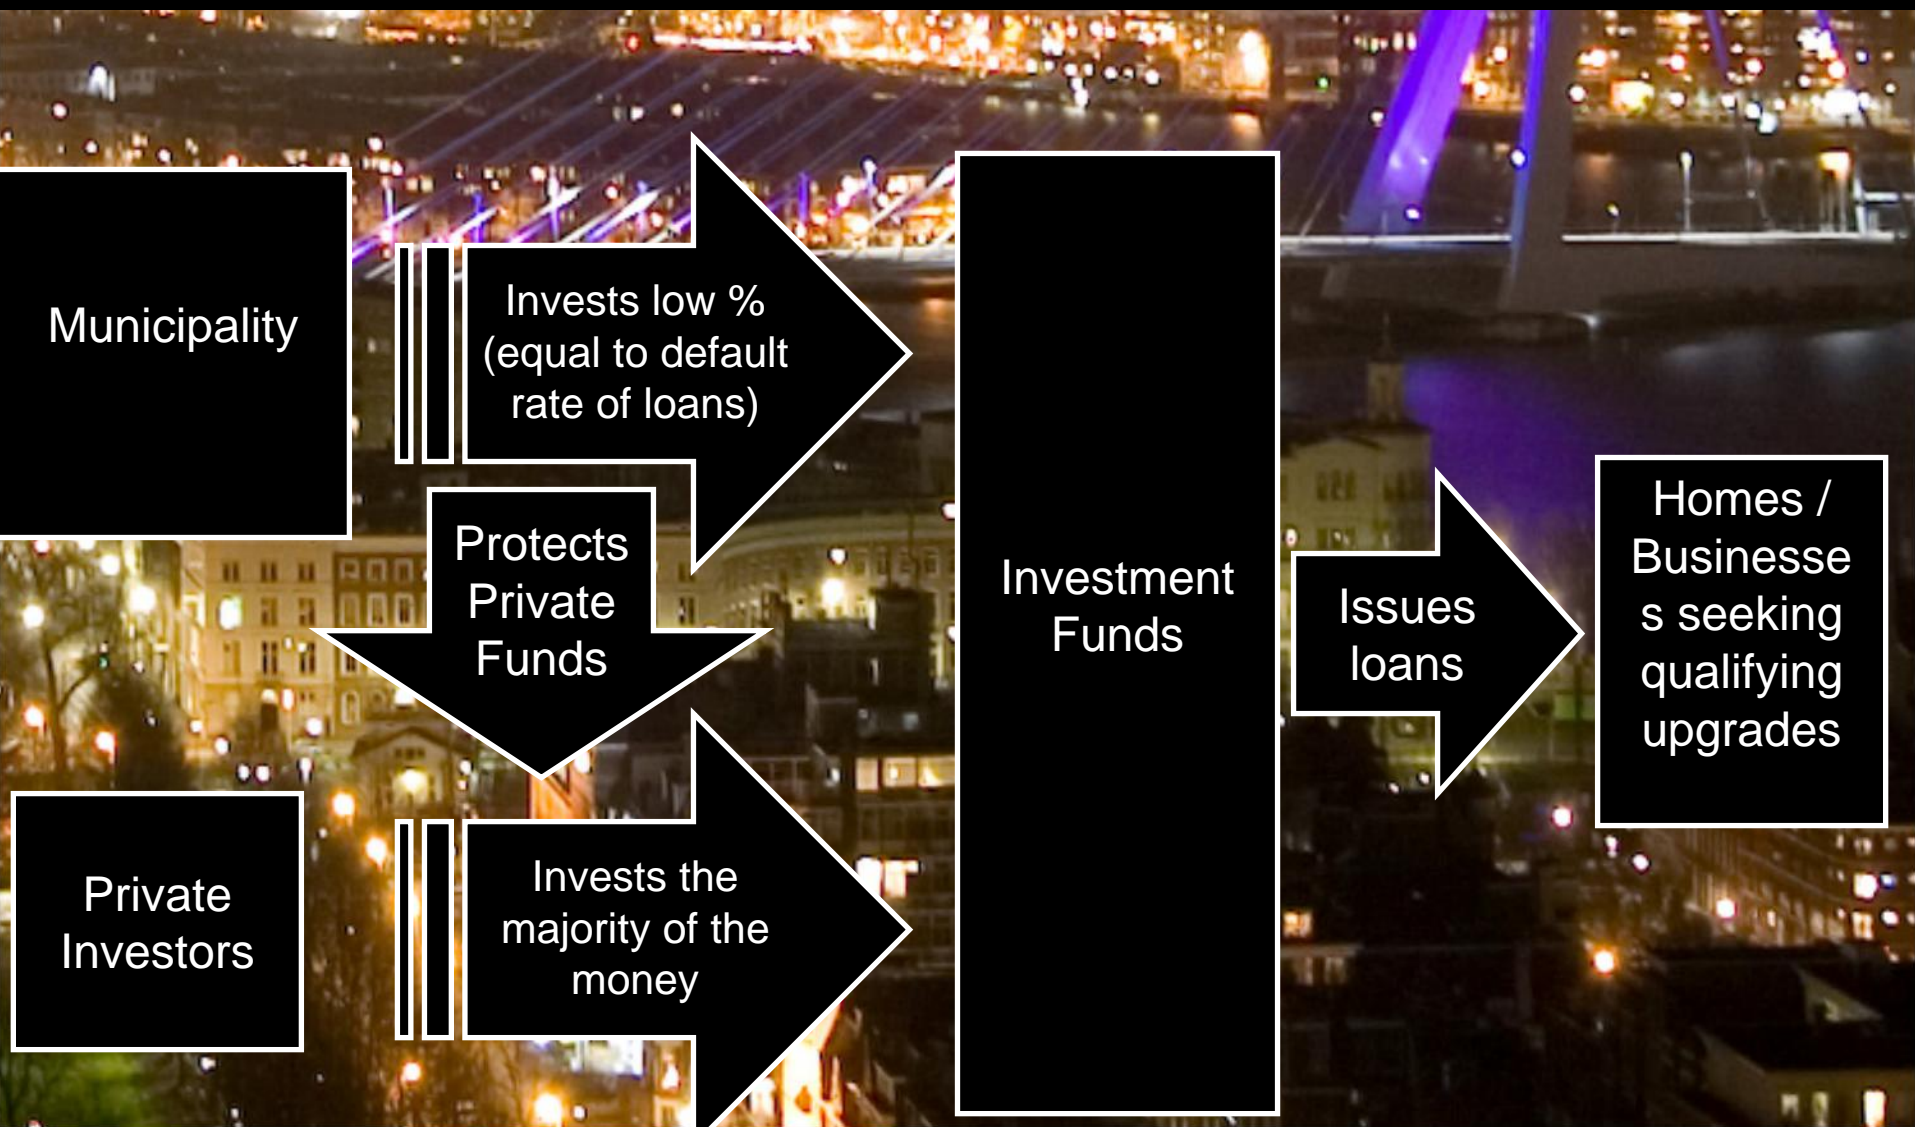

On Bill Financing: A utility company can purchase an energy efficiency upgrade for a customer and recoup the loan amount through the customer's energy bills

On-bill financing can also enable customers to buy more efficient appliances

On-Bill Financing can help thousands of people afford energy efficiency home upgrades without the sticker shock

Public Private Investment Programs

Media-Driven Financing
